

Skills Bootcamps are free, flexible courses of up to 16 weeks, giving anyone\* the opportunity to build up sector-specific skills and fast-track to an interview with an employer.

# SKILLS BOOTCAMP IN CLOUD, CYBER & WEB DEVELOPMENT

## ABOUT

The Skills Bootcamp in Cloud, Cyber & Web Dev provides you with a comprehensive introduction and overview of cloud-based principles, networking concepts and website development.

You'll understand how the disciplines work together as well as gain knowledge of cloud concepts, management and technical operations, cloud environments, software development, web technologies and coding languages.

You will work towards either a CompTIA or a Linux Professional Institute qualification in one of the 3 areas, validating your ability to deploy and automate secure cloud environments and implement simple web applications.

It is the ideal kick starter for anyone looking to become a cloud engineer, web developer or cyber security professional.

## CONTENT

Cloud concepts | Business principles of cloud environments | Management and technical operations | Governance, risk, compliance and security for the cloud | Cyber Security | Software Development and Web Technologies | HTML Document Markup | CSS Content Styling | JavaScript Programming | Careers Guidance | Personal development and transferrable skills

## CAREERS

With this qualification, you can explore careers in SecOps, DevOps, Cloud Engineering, CyOps, Cloud Architecture, Cyber Security technologist, Cyber Security analyst or web development.

If you want to continue to learn, you might want to consider a level 4 apprenticeship, Certificate of Higher Education or possibly a degree programme, depending on your previous qualifications.

## OVERVIEW

16 WEEKS

MONDAY-FRIDAY 1PM-5PM
